

Heavy Duty Rubber Cable Protector – Specification Sheet

Product Overview

The Heavy Duty Rubber Cable Protector is designed to protect floor-running cables in industrial, commercial, and professional environments. It reduces tripping hazards, prevents cable damage, and provides a durable, non-slip solution for temporary or permanent installations.

Product Name	Heavy Duty Rubber Cable Protector
Colour	Black
Material	Heavy Duty Rubber
Overall Width	100 mm
Maximum Height	30 mm
Internal Cable Cavity	20–22 mm diameter
Available Lengths	1 m, 2 m, 3 m, 4 m, 5 m, 10 m
Installation Type	Surface-laid floor protector
Typical Use	Industrial & commercial pedestrian areas

Safe Use & Installation Manual

Intended Use

Designed for pedestrian environments where floor-running cables must be protected. Suitable for warehouses, factories, workshops, exhibitions, server rooms and commercial premises.

Important Safety Information

- Not suitable for vehicle traffic or heavy machinery.
- Not suitable for EV charging cables or oversized industrial power cables.
- Ensure cables are fully seated inside the protector before use.
- Do not install on uneven or unstable surfaces.

Installation Guidelines

1. Clean and dry the floor surface.
2. Feed cables through the internal channel.
3. Lay the protector flat and press firmly into position.
4. Inspect after installation to ensure stability.

Maintenance & Storage

Inspect regularly for wear or damage. Clean with mild detergent only. Store flat in a dry area away from direct sunlight when not in use.
